-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Receipt of the Appeal Brief filed April 14, 2006 is acknowledged. Applicant has pointed out the case history show a discrepancy in the status of claims 33-45 which were added January 05, 2004. The final rejection treated claims 6-13, 18-28, but inadvertently omitted claims 33-45. Thus the case is REOPENED to address claims 33-45. This Office Action is considered a Supplemental to the Final office action filed April 08, 2004.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 33-45 are rejected under 35 U.S.C. 103(a) as being unpatentable over Breen (US 6,615,188) in view of Young (US 6,377,939).

Breen discloses providing a plurality of Java applets for communications with trade server to perform trade executions (see Breen col.10, lines 43-65), but fails to disclose that the plug-ins for implementing a respective trading strategy from a plurality of trading strategies. Young discloses various feature of plug-ins that can be used to perform various computation and configuration aspects (see young col. 10, lines 42+). An artisan at the time of Breen would have sought the computational and configurable aspects of plug-ins to perform various trading operations (e.g., buying and selling) as well as communications between the trading server to

effect a trade. Moreover, it would have been obvious for an artisan to recognize that Java applets and plug-in provide interactive functionality to web browsers and have sought to use plug-ins to provide functionality to electronic trading (or communication) of financial instruments. Thus the Java applets and the plug-in would be considered art recognized equivalents.
